## FROM PRINCIPAL'S DESK

"Education is not the preparation for life. Education is life itself", This inspiring quote from John Dewey speaks about the importance of education in one's life. Education is an active process that should occur to enrich one's living. When one views education only as a temporary process, one can miss out on the bigger picture of life and fail to grasp what it truly is. St. Ann's Mallapur teaches students that education is a lifelong process and it empowers them to love and live life. Thus, making the above quote a reality through their active engagement in various activities, programs, and events conducted year after year.

The current issue of the E-Newsletter, "Annite Rays -2023" gives a glimpse of all the academic and non-academic activities and events held on the college campus for the academic year from June 2022 to July 2023. All that happens on campus makes students' learning more exciting and insightful. Students are constantly motivated to direct their energies and efforts to bring out their hidden potentials for creative living which also helps them peacefully achieve their academic endeavors. The best infrastructural facilities, well-qualified and experienced instructors, dedicated administrative personnel, and committed support staff create a good ambiance that makes students learning and their stay on campus happy and pleasurable.

I am happy to have a team of dedicated and energetic Staff, who genuinely mentor Annites to realize their dreams and pursue their aspirations. We at St. Ann's, do not just focus on formal education but mould and shape them to become better human beings and responsible individuals. While I appreciate the efforts of my team, I reaffirm that we will continue to work with dedication to help Annites live a purposeful life. I thank the Annites for their cooperation and readiness to journey toward the "Pursuit of Truth". I am sure that the untiring efforts and energies of our committed staff and the support of our students will bear abundant fruit and take the institution to the heights of success.
